The Prism

A prism is a powerful symbol of transformation, clarity and possibility. Just as a single beam of light passes through a prism to reveal a spectrum of colours, Bidvest brings together a diverse portfolio of businesses, capabilities, people and perspectives, united by a common purpose and shared vision. The prism reflects the strength of our diversified Group, where each business contributes its unique expertise, identity and value to a greater collective. It represents our ability to navigate complexity, embrace different perspectives and transform challenges into opportunities for sustainable growth.

The spectrum of colours emerging from the prism symbolises the many dimensions of Bidvest, distinct yet interconnected, each contributing to a stronger, more dynamic whole. It is an expression of who we are, how we think and where we are going. It captures our ability to turn complexity into clarity, diversity into strength and vision into meaningful action.

MPUMI'S **MESSAGE**

Thank you for taking the time to read this brochure. Whether you buy from us, supply to us, partner with us, or are meeting us for the first time, we are delighted to have the opportunity to engage with you.

At Bidvest, we do the everyday essential things that keep businesses and communities moving, and we aim to do them well. Our companies keep workplaces clean and hygienic, move freight through ports and across borders, supply the tools and materials that builders and tradespeople need, equip offices, feed and host travellers, keep people healthy and safe, and supply and look after the vehicles that get people to work. In every case, the aim is the same: to be a dependable partner and we do what we say we will do.

This brochure is your guide to how we can help. Inside, you will find our products and services, organised by the divisions that deliver them: Services International, Freight, Services South Africa, Branded Products, Commercial Products, and Automotive. Each section explains what we offer, who we serve and how to reach the right people. What makes Bidvest different is the way we are organised. Our businesses are run by their own leaders, who know their supply chain, their customers and their markets. That means quick decisions, personal service and the freedom to adapt when conditions change. At the same time, you benefit from the strength, financial discipline and reach of a group that operates across southern Africa and in key, selected and niche international markets.

For our customers, we promise quality, reliability and good value, backed by people who listen. For our suppliers, we promise fair dealing, clear communication and payment on the terms we agree. Strong relationships on both sides are what make Bidvest work, and we never take them for granted.

Our world is changing quickly, and we do not have all the answers. What we do have is a habit of staying close to the people we serve and always improving. I invite you to explore the pages ahead, ask questions and tell us how we can do better.

Thank you for your trust, and for being part of the Bidvest story. We look forward to working with you.

Mpumi Madisa | *Group Chief Executive*

The strength of Bidvest is reflected in the people who lead it, the people who build it and the people
WHO CONTINUE TO MOVE IT FORWARD.
- Mpumi Madisa

THIS IS **US**

Founded in 1988 and listed on the JSE Limited in Johannesburg, SA, Bidvest has over 250 individual businesses across the Group and employs approximately 130 000 people. Whilst our roots are firmly established in Southern Africa, we have expanded our footprint into the UK, Ireland, Spain, Australia, Singapore, India, Canada and the US.

To make a meaningful impact, our disciplined strategy is based on entrenched principles and distinctive attributes

OUR **PRINCIPLES**

Empowering entrepreneurship

We think like customers but act like owners. Every employee has the power to make our business better.

Committed to customers

We make every decision and measure our performance on how well it serves our customers. When our customers succeed and grow, we succeed and grow.

Driven by excellence

We value and respect the skills, time and intentions of all our people. We strive to provide an environment where they can do, and become, their best.

Creating social value

We take the long view and strive to make a sustainable difference in society. We are building something worth building, that will endure the test of time.

Leading by example

We do the right thing, even when no one else is looking. Doing what is right is different from doing what is easy.

OUR **VALUES**

Accountability

Think like customers, act like owners: accountability close to the market drives agility and performance.

Honesty

Communicate openly, act transparently, and build lasting trust through truthful relationships.

Integrity

Do what is right, uphold our principles, and deliver on our commitments consistently.

Respect

Value every individual, embrace different perspectives, and build stronger relationships through mutual respect.

Strategic Enablers Decentralised and diverse portfolio | Performance-driven culture | Financial strength | Sustainability Framework

OUR **OPERATIONS**

OUR **STRATEGY**

The Group's strategic ambition is one of scale and growth, grounded in diversification and continually pursuing sustainability. This is enabled by a strong balance sheet, exercising financial discipline through considered capital allocation, fostering innovation and pursuing organic and acquisitive growth opportunities in our identified areas of focus.

The Services International division, the Group's largest contributor to profitability, is a key driver of our **international growth** strategy.

We target a blend of **defensive, cyclical** and **growth assets** that delivers resilience across economic cycles.

Capital is invested in key areas to develop relevant market players at **scale,** ensure business **longevity,** preserve **flexibility** through economic cycles and enable disciplined growth. Investment decisions are evaluated against return thresholds, strategic alignment and risk considerations, ensuring that capital deployed strengthens sustainable enterprise value creation.

> *"We are on track to build the world's largest hygiene services business. We have already achieved the number one market position in eight of the 14 countries where we currently operate."*

ORGANIC GROWTH

Within our existing portfolio, we extract value from fragmented markets, expand our service and product offerings, and pivot into growth sectors as market conditions evolve.

ACQUISITIVE GROWTH

We pursue bolt-on acquisitions that strengthen existing platforms, acquire beachhead hygiene services and facilities management businesses to expand our global footprint and invest in long-dated assets that can generate returns well into the future.

OUR ENABLERS

Decentralised and diverse portfolio

Our decentralised operating model is central to how value is created. Each of our six divisions is led by its own chief executive and management team, empowered to operate with entrepreneurial focus and accountability. The diversity across sectors, geographies and asset types is the Group's most effective risk management tool and key enabler for consistent and sustainable outperformance.

Performance-driven culture

We support our entrepreneurial management teams across all our businesses and empower them to offer strong value propositions, focus on cash generation and returns and contribute to an efficient and sustainable socio-economic environment.

Innovation and an environment in which employees thrive is at the heart of everything we do, and drives our advancement across industries and geographies. We encourage a performance-driven culture with clearly defined metrics that define success. Executive rewards are based on performance against specific metrics derived from these.

Financial strength

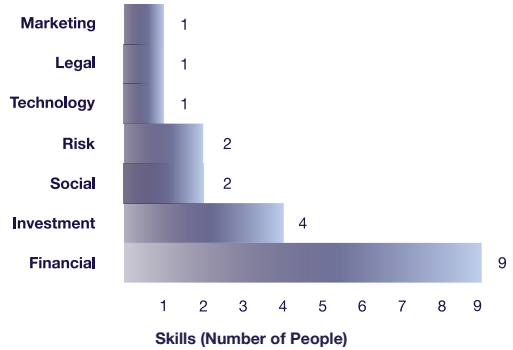

We maintain a strong balance sheet as a fundamental enabler of continued growth. We track performance through an entrenched ROFE measurement, targeting above 50% for services-related businesses and approximately 30% for distribution-related businesses. We are focused on ensuring the return on invested capital exceeds our cost of capital and on converting trading profit into cash.

Sustainability Framework

An integrated approach that aligns the Group's strategic ambitions with bold commitments to tackle sustainability challenges in an engaged, innovative and collaborative manner is expressed in the Bidvest Sustainability Framework 2035. Specific focus areas identified and targets set aim to drive deliberate, inclusive and sustainable socio-economic prosperity in its home countries. Executive rewards are based on performance against specific metrics derived from these.

LEADERSHIP: **BOARD**

The Board and its six sub-committees, together with six divisional boards and audit committees, chaired by independent non-executives, provide robust oversight. Combined assurance receives deliberate and focused attention at Bidvest. Each Board committee is chaired by an independent non-executive director with delegated authority from the Board. Diversity, in its broadest sense, is the hallmark of the Bidvest Board, something we are very proud of. The Group has set targets for gender and race representation at all levels of the organisation, as embedded in the Sustainability Framework.

LEADERSHIP: **EXCO**

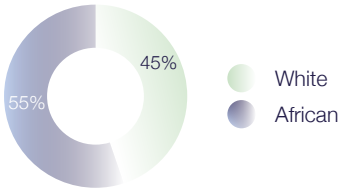

The Group Exco consists of 11 members, including the Group executive directors and functional executives covering strategy, finance, investor relations, sustainability, governance and business development, as well as the six divisional chief executive officers.

The Group believes that its decentralised governance structure supported by experienced management, many of whom are specialists in particular sectors or industries, and lead the day-to-day operations of the businesses, positions the Group well for the continued focus and execution of its key strategic initiatives. As a result, most of the members of the Group's senior management team (whether focused on individual businesses, divisions or the Group as a whole) are heavily rooted, not just in the relevant industry or industries from decades of prior experience, but also in the Group's journey to the diversified business that it is today.
